

Indemnity Declaration

I, _____

ID No: _____

Hereby declare as follows:

1. I hereby declare that I have done my own research regarding the Beck Protocol methods and devices online and have requested Mr Philip Smit, an electronic developer to construct the Blood Pulsing unit and/or the Colloidal Silver generator based on the original circuit offered as free information by Dr Robert Beck and now available online at www.bobbeck.com. I requested a few modifications to improve the user interface and to be able to also use these devices while connected to a DC adaptor connected to a 250V AC wall socket.
2. I am aware that the manufacturer of the Blood Pulsing Device (also known as the Beck Protocol Blood Cleansing Pulsar or The Eliminator Electro-pulsing Blood Cleanser) and the Colloidal Silver Generator device will not accept any liability for any injury, adverse health related issues or death of the user directly or indirectly related to the use of this device.
3. I understand the supplier of The Eliminator Electro-pulsing Blood Cleanser device and/or the Silver Colloidal Generator is not a medical professional and does not offer professional medical advice or any specific treatment recommendations.
4. I am aware that I should obtain medical advice from a medical professional regarding the use of an elctro-blood pulsing device and/or colloidal silver and the influence of such self-help treatments on my current state of health.
5. I am aware of the precautions regarding the use of the unit as published in the document that was downloaded here and specifically also referring to **pages 10 and 11**:
<https://www.bobbeck.com/pdfs/guide-to-using-the-beck-protocol.pdf>
6. I am using this unit as an experimental alternative and in addition to conventional medicine treatment and understand that it is an experimental self-help device.
7. I am aware that there might not exist any medical clinical tests for this treatment.
8. I understand that the supplier or manufacturer of the device does not imply any guaranteed cure for any kind of illness whatsoever and I am using it purely as part of my own research and experimentation.
